The amendment filed April 29, 2004 is non-responsive since the new added limitations to claim 69 "an analysis system to identify regions of interest (ROIs) in the medical image, generate a *annotated road map* identifying one or more of said ROIs thereon, and associate said image ID with *said annotated road map*;" drawn to different invention other than the invention of claims 8-14, 38-46, 89, and 100. Thus, the Applicant fails to elect **one single invention** to be examined even though the requirement is traversed (37 CFR 1.143).
